Re: Promulgate of Continuing Professional Development (CPD)

Encl: SOAT CPD Requirements

Dear SOAT Fellow Members,

As shared earlier in the Exclusive Gathering of Executive Actuaries 2018 held in late October 2018, I, on behalf of the SOAT Management, is delighted to inform you that the SOAT's first set of CPD Requirements has been finalized and ready for implementation from this January 15 onward. The CPD Requirements are developed to ensure the continuing professional development of SOAT members in alignment with international standards. They may also be considered as the first milestone of SOAT development to be an active part of Thailand's insurance industry.

The CPD requirements will be applied only to SOAT Fellow members first. However, in the future, the requirements may possibly be extended to apply to SOAT members in other classes as well.

Full details of the Requirements are as in the files attached herewith.

Please take you time to read them well. If you have any question(s) concerning the CPD Requirements, please feel free to contact us for a clarification.

We, SOAT, would like to promulgate the Continuing Professional Development to become effective date from **15 January 2019** onwards.

Please be informed accordingly.

Best Regards,

Mr. Tommy Pichet, FSA, FIA, FRM, FSAT
President
