

NON-LIFE INSURANCE FORUM 2026

**"THE AGE OF EXTREME RISK: From Natural Catastrophes
to Digital Threats"**

Thursday 29 October 2026

At Ballroom 2, S 31 Sukhumvit Hotel

BACKGROUND

The risk landscape facing non-life insurers is changing rapidly.

Natural catastrophes are becoming increasingly complex to assess, while cyber threats are evolving into risks that can spread across industries, geographies, and entire portfolios. What were once considered low-frequency or highly remote events can now create significant financial, operational, and capital impacts.

For insurers, the challenge is no longer simply to identify these risks, but to understand how extreme losses can develop, how reliable our risk estimates really are, and how those insights should inform underwriting, capital, reinsurance, and risk management decisions.

This is particularly relevant for the Thai non-life insurance industry, where catastrophe risk is receiving increasing attention alongside evolving regulatory expectations, PML assessment, reinsurance adequacy, and the growing exposure to both natural and digital threats.

At the same time, cyber risk is moving beyond traditional IT security. The rise of ransomware, AI-enabled threats, interconnected technology platforms, and systemic dependencies is challenging insurers to think differently about accumulation, tail risk, and the boundaries of insurability.

Non-Life Insurance Forum 2026 brings together leading experts and insurance professionals to explore how the industry can better understand, quantify, and manage extreme risks – from physical catastrophes to systemic cyber events.

Because in the Age of Extreme Risk, the next catastrophe may not look like the last one.

The SOAT is pleased to be once again hosting this event, which will take place on 29 October. Non-Life Insurance Forum qualifies for (CAS / Actuaries Institute Australia / IFoA / SOA) Continuing Professional Development (CPD). A maximum of 2.5 CPD hours* can be claimed from Non-Life Insurance Forum.

*1 CPD hour = 60 minutes (for SOAT)

PROGRAMME

08.30 - 09.00

Registration

09.00 - 09.05

Opening Remarks

Mr. Thanyanop Lausuksringam, Director
The Society of Actuaries of Thailand

09.05 - 09.55

Understanding Natural Catastrophe Models (English Version)

Dr. Michael Drayton, Market & Product Specialist, Moody's

09.55 - 10.15

Break

10.15 - 11.05

Cyber Insurance in the age of AI And ransomware (Thai Version)

Mr. Woramet Temboonsak, Managing Partner / Head of Cyber
Practice, XEL Risk Advisors (Thailand) Co., Ltd.

11.05 - 11.55

Catastrophic Cyber (English Version)

Dr. Michael Drayton, Market & Product Specialist, Moody's

11.55 - 12.00

Closing Remarks

Mr. Thanyanop Lausuksringam, Director
The Society of Actuaries of Thailand

12.00 - 14.00

Lunch

SPEAKER

DR. MICHAEL DRAYTON

Market & Product Specialist, Moody's

Michael Drayton is a Market and Product Specialist at Moody's RMS. He joined RMS in the UK in 1996 as a model developer, working on extreme weather models for North Atlantic hurricane, Europe wind storm and UK flood. In 2004 Michael returned home to New Zealand. Following the 2010/11 earthquakes in Christchurch, he became more involved with the local NZ market, liaising between RMS' developers and local insurers, regulators, engineers and government. Today he provides technical support for Australia and New Zealand physical risk models to Moody's client facing teams.

Michael has a degree in Civil Engineering from Canterbury, New Zealand and a PhD in Applied Mathematics from King's College, Cambridge.

MR. WORAMET TEMBOONSAK

Managing Partner / Head of Cyber Practice, XEL Risk Advisors (Thailand) Co., Ltd.

WORAMET TEMBOONSAK is Managing Partner and Head of Cyber Practice at XEL Risk Advisors (Thailand) Co., Ltd. in Bangkok, where Woramet advises Thai and multinational clients on cyber risk and its transfer to the insurance market. Woramet brings nearly ten years of experience across insurance underwriting and broking.

Before joining XEL, Woramet spent seven years at Marsh in Thailand. Joining in the early days of Thailand's cyber insurance market, Woramet helped build market understanding by educating clients, insurers and other key stakeholders on the importance, benefits and intricacies of cyber cover. The role later grew into leading Marsh's Cyber Practice as a stand-alone department, extending beyond insurance placement into cyber risk consulting to help clients identify, assess and mitigate their cyber exposures. During this time Woramet built and led a team of five cyber brokers, mentoring each to become a trusted specialist in their industry segment, and developed partnerships with local IT forensic firms across Thailand.

Woramet began a career in insurance as an underwriter at Dhipaya Insurance Public Company Limited, leading the development of new insurance products through market research and engagement with prospective partners and clients, and working with overseas reinsurers on behalf of Dhipaya as ceding company, including reviewing policy wordings for compliance with OIC-approved language.

REGISTRATION

Thursday 29 October 2026, (08.30 - 14.00)

S31 Sukhumvit Hotel

Registration Online Scan Here!

Deadline By: 26 October 2026
